Fictional Portrayals of Spain's Transition to Democracy Anne L. Walsh, 2017-08-21 This manuscript looks at a selection of narratives published in Spain during the transition to democracy and compares them with more recent publications The main focus here is how fiction brings an extra dimension to the recreation of the past by adding imagination to historical fact One effect of this is to challenge readers or spectators to question the effect the reliability of the narrator has on conviction about the events told By using a specific moment in time Spain s Transition it will be seen that memory history and imagination all blend together to create very different stories but all are linked with the idea that the past will always haunt the present and actions from the past will have far reaching consequences Texts analysed here include work by Javier Cercas Eduardo Mendoza Manuel V zquez Montalb n Rosa Montero Arturo P rez Reverte and Gonzalo L pez Alba as well as episodes from two popular TV series Cu ntame c mo pas and Protagonistas de la Transici n
