Rafael Dieste (1. print.) Estelle Irizarry, 1979 Seven Structural Engineers Félix Candela, 2008 Since 1997 the Structural Engineers Association of New York has hosted a lecture series in honour of the structural engineer Felix Candela This book presents all eight lectures in written form for the first time The lectures cover varying topics related to structural engineering and have been given by some of the most prominent structural engineers working and teaching today Each essay is fully illustrated Creating Spaniards Sandie Eleanor Holguin, 2002 Creating Spaniards is a cultural and intellectual history that explains the intersection of politics and culture and the formation of a national identity during Spain's Second Republic and Civil War It counters recent scholarship claiming that leaders of the Second Republic had no programs for inventing traditions to encourage a Spanish national identity Focusing on the Second Republic 1931-1936 Sandie Holguin illustrates how various intellectuals and politicians of the Republican Socialist coalition used theater literature and film to aid the construction of a unified Spanish culture and history She uses memoirs journals newspapers parliamentary debates and archival sources in her examination of the impact that cultural reforms had on the transformation of one of Europe's oldest states **Anuario de estudios literarios galegos. 1995 (1996)**, 1996 *News of Spain*, 1938 **A History of Lying** Juan Jacinto Muñoz-Rengel, 2022-08-31 Wherever there is life there are lies Slick suited politicians lie on the podium ready to tell voters what they want to hear Cheating lovers swindling businessmen double crossing villains all liars But nature lies too the cheetah crouching in the tall grass waiting to pounce its spots and straw coloured fur blending in with its surroundings the chameleon with its adaptable skin the octopus hiding in its cave Juan Jacinto Muñoz Rengel uncovers the slippery history of lies some dark and elusive others thunderous and dazzling From primeval forests to modern politics he explores the uncomfortable truths of our white lies fudged facts and blatant deceptions For centuries philosophers writers and poets have grappled with the paradox of what's fact and what's fiction So who can we really believe Our friends Our partners Our leaders Can we even trust ourselves Truly this is the only book in which the abundance of lies on its pages is a sign of success Or maybe it isn't Who can really tell *GRIAL Revista Galega da Cultura*, Children's Culture and Citizenship in Argentina Lauren Rea, 2023-11-08 Argentina's Billiken was the world's longest running children's magazine publishing 5144 issues over one hundred years It educated and entertained generations of schoolchildren and came to occupy a central role in Argentine cultural life This volume offers the first academic history of the whole lifespan of Billiken as a print magazine through to its transition into a digital brand As an editorial project founded at the time of the massification of print culture Billiken was in the business of creating future citizens From its transnational and literary beginnings Billiken quickly became organised around the school year offering valuable extra curricular material aligned to the patriotic drivers of state schooling Billiken told the story of the Argentine nation cyclically and repeatedly gaining such momentum that it became part of the nation's story itself This volume adopts a multi disciplinary approach to take account of the many different facets of Billiken's

content born from a combination of ideological commercial political and cultural drivers This history of Billiken examines the changes contradictions and continuities in the magazine over time as it responded to political events adapted to new commercial realities and made use of technological advances It explores how Billiken magazine not only reflected society but shaped it through its influence on childhoods children s culture and education and provides an alternative window onto the history and politics of a tumultuous hundred years for Argentina Spanish, Catalan, and Galician Literary Authors of the

Twentieth Century David S. Zubatsky,1992 Provides a comprehensive index to published bibliographies that list a literary author s works and or critical studies about the works In addition to novelists playwrights poets and short story writers the guide also covers bibliographies for linguists literary critics and historians **Handbook of Phenomenological**

Aesthetics Hans Rainer Sepp,Lester Embree,2010-03-11 Historically phenomenology began in Edmund Husserl s theory of mathematics and logic went on to focus for him on transcendental rst philosophy and for others on metaphysics philosophical anthropology and theory of interpretation The c tinuing focus has thus been on knowledge and being But if one began without those interests and with an understanding of the phenomenological style of approach one might well see that art and aesthetics make up the most natural eld to be approached phenomenologically Contributions to this eld have continually been made in the phenomenological tradition from very early on but so to speak along the side The situation has been similar with phenomenological ethics A great deal of thought about art and aesthetics has nevertheless accumulated during a century and a handbook like the present one is long overdue The project of this handbook began in conversations over dinner in Sepp s apa ment in Baden Baden at one evening of the hot European summer in the year 2003 As things worked out he knew more about whom to ask and how much space to allocate to each entry and Embree knew more about how to conduct the inviting preliminary editing and prodding of contributors who were late returning their criticized drafts and copyedited entries and was able to invest the time and other resources from his endowed chair That process took longer than anticipated and there were additional unfortunate delays due to factors beyond the editors s control
