César Ruiz Sanjuán, 2019-06-03 Una distorsión recorre el pensamiento político de los dos últimos siglos hasta el presente la deformación de la teoría crítica del capitalismo elaborada por Karl Marx. Esa distorsión producto de constantes y progresivas interpretaciones del marxismo ortodoxo y del marxismo occidental ha impedido una correcta comprensión no solo de las líneas maestras del pensamiento de Marx sino también de conceptos fundamentales como los de historia, sistema o dialéctica. Como remedio César Ruiz Sanjuán propone una nueva lectura de Marx que muestre la brecha entre las derivas del marxismo y la obra de Marx y que manifieste su incontestable actualidad. Historia y sistema en Marx ofrece un amplio y riguroso estudio del conjunto de la producción teórica de uno de los más influyentes pensadores del siglo XIX desde sus escritos de juventud hasta sus textos de madurez y construye una visión global de su obra.
